ORIGINAL SITE

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This three story building of running bend brick is raised above a lew basement. Lecated in mid-block, it has a sloped roof and 1st floor shopfront.

The basement floor, has 2 small windows with stone sills and is capped by a white marble band-course. There is a stoop of the same marble with three stairs.

The shopfront is framed by an ornamental band of brick at the sides and top which has herring bone miters at the corners. The wood entrance door with a large glass panel is located in a shallow recess to the left. Two louvered doors hinged together are folded at the left edge of the door. The shop window consists by 3 large panes of glass, capped by 3 transems. The side panel form obtuse angles to the wider center panel which is flush with the facade and immediately over the marble band. There is a brick pier between the door and window.

On the second floor, a wide tripartite window whose side panels are very narrow and flank a "picture" window has a stone sill. The two one-over-one double hung windows of the 3rd floor have stone sills and splayed brick lintels. The plain molded cornice shops short of the facades side edges, so that its profile may be seen.
